Research Interests

I study relations and interactions in structured data, focusing on tabular foundation models and heterogeneous graphs. My research examines how these structures shape representation learning and generalization, with the goal of developing principled and computationally efficient methods for reliable, robust, and broadly applicable intelligent systems.

Education

Seoul National University (SNU) — **Mar. 2026 – Present**
Ph.D. in Computer Science and Engineering | Advisor: Prof. Jaemin Yoo — Seoul, South Korea

Korea Advanced Institute of Science and Technology (KAIST) — **Sep. 2025 – Feb. 2026**
Ph.D. studies in Electrical and Electronics Engineering | Advisor: Prof. Jaemin Yoo — Daejeon, South Korea

Sungkyunkwan University (SKKU) — **Mar. 2023 – Aug. 2024**
M.S. in Applied Artificial Intelligence | GPA: 4.28/4.50 | Advisor: Prof. Eunil Park — Seoul, South Korea

Sungkyunkwan University (SKKU) — **Mar. 2017 – Feb. 2023**
B.S. in Statistics | GPA: 4.39/4.50 | Summa Cum Laude — Seoul, South Korea

Experience

Founding Research Scientist | NUMS AI — **Aug. 2026 – Present**
Building Causilo, a frontier tabular foundation model. — Seoul, South Korea

Data Scientist, Big Data Center | NH Investment & Securities Co., Ltd. — **Aug. 2023 – Aug. 2025**
Data analysis and machine learning for decision making. — Seoul, South Korea

Data Scientist, Data Service Team | KB Kookmin Card Co., Ltd. — **Oct. 2022 – Jul. 2023**
Data analysis and machine learning for decision making. — Seoul, South Korea

Honors and Awards

AI Seoul Tech Research Scholarship | KRW 40 million — **Jun. 2026**
Daishin Investment & Securities AI with ESG Contest | 2nd Place — **Aug. 2022**
NH Investment & Securities Big Data Contest | 1st Place — **Nov. 2021**
KOPIS Big Data Contest | 1st Place — **Sep. 2021**
Sungkyunkwan Academic Excellence Scholarship | Full Tuition — **2019 – 2022**

Teaching Assistantships

SNU M1522.001400 | Introduction to Data Mining — **Spring 2026**
KAIST EE412 | Introduction to Big Data Analysis — **Fall 2025**
SKKU AAI2021 | Computational Thinking, Programming, and Applications — **Spring 2023**
SKKU CHS7003-I1 | Artificial Intelligence Applications — **Fall 2021, Spring 2022**

Talks

ICML 2026 FMSD Workshop | Spotlight Oral (top 5%) — **Jul. 2026**
Bounded Context Management for Tabular Foundation Models on Stream Learning | Seoul, South Korea

Samsung AI Young Leader Data Seminar — **Jul. 2026**
LLM KV Cache Eviction & Tabular Foundation Models on Stream Learning | Virtual
